Unicode SHX Fonts
for
AutoCAD

What are Unicode SHX fonts?

Several factors affect your choosing, entering, and displaying international text in a drawing. The program AutoCAD supports the Unicode character-encoding standard. Beginning with AutoCAD 2007, all SHX shape fonts are encoded with the Unicode standard.

A SHX font encoded, using the Unicode standard font, can contain many more characters than are defined in the Windows system; therefore, to use a character not directly available from the keyboard, you can enter the escape sequence \U+nnnn, where nnnn represents the Unicode hexadecimal value for the character.

Examples:
\U+00B0   - Degrees symbol (°)
\U+00B1   - Tolerance symbol (±)
\U+2205   - Diameter symbol
\U+2075   - Subscribed 5
\U+2031   - Per Mill Sign

We have the most AutoCAD SHX fonts, including many important Unicode special characters needed in the fields of engineering and mathematics.

These extended SHX fonts bear the name K_ .... .shx and can be found in the AutoCAD directory ... /Fonts after they are copied there, per our installation software.

We supply the following SHX fonts:

K_isocp.shx   as a modified version of the Font   isocp.shx
K_isocp2.shx   as a modified version of the Font   isocp2.shx
K_isocp3.shx   as a modified version of the Font   isocp3.shx
K_isoct.shx   as a modified version of the Font   isoct.shx
K_isoct2.shx   as a modified version of the Font   isoct2.shx
K_isoct3.shx   as a modified version of the Font   isoct3.shx
K_txt.shx   as a modified version of the Font   txt.shx
K_simpl.shx   as a modified version of the Font   simpl.shx
K_romt.shx   as a modified version of the Font   romt.shx
K_roms.shx   as a modified version of the Font   roms.shx
K_romd.shx   as a modified version of the Font   romd.shx
K_romc.shx   as a modified version of the Font   romc.shx
K_italct.shx   as a modified version of the Font   italct.shx
K_italcc.shx   as a modified version of the Font   italcc.shx
K_italic.shx   as a modified version of the Font   italic.shx

How to use Unicode SHX fonts?

To use these fonts declare them using the AutoCAD command "style" and simply choose the font you want to use.

You can also rename the k_... .shx fonts in ... .shx and overwrite the original SHX fonts in the AutoCAD directory ...\Fonts with new fonts.

On the following pages, of the attached PDF file, you will find tables with the symbols and the number of Uni-code characters from our fonts. You can see the appearance of these fonts if you open, in AutoCAD, the attached DWG files.
